

A photograph of a modern poolside area at dusk. A covered patio with a white ceiling and wooden beams is on the left. A swimming pool with a dark blue tiled interior is in the foreground. The background shows a white house and lush greenery under a twilight sky.

Sukabumi

EARTH'S TEXTURE,
PERFECTED FOR POOLSIDES

ISLAND STONE & TILE

4"x4"- Sukabumi Select - Honed

“ Sukabumi creates a beautifully unique and natural green tone that blends perfectly with a landscaped surround and seems to be inviting you to just dive right in. ”

~ NIGEL EATON, DIRECTOR OF BUSINESS
DEVELOPMENT OF ISLAND STONE.

Sukabumi Select Collection

The preeminent stone for premier pools throughout the world

Chosen by the world's most sought-after five-star resorts and luxury villas, Sukabumi is considered the premier stone for pools worldwide.

Its popularity stems from its refined appearance, natural durability, thermal stability, and purifying mineral composition. Zeolite is believed to help naturally restore pH balance, while chlorite gives the stone its signature emerald hues.

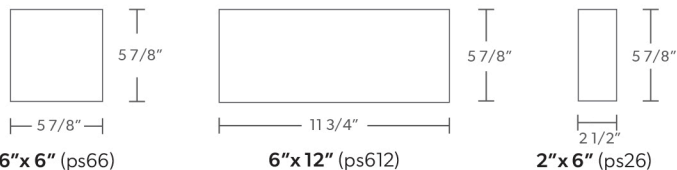

Once submerged, Sukabumi reveals rich shades of green that harmonize beautifully with natural surroundings. Each piece is unique, offering subtle tonal variation and crystalline depth that add dimension and character to any pool design.

INSTALLATION & MAINTENANCE

- Install per TCNA Handbook for Ceramic, Glass, and Stone Tile Installation.
- Inspect entire order prior to commencing tile work. Installation constitutes acceptance.
- Sukabumi Select should be sealed with a quality sealer.
- Sukabumi Select should be cleaned with a pH neutral stone cleaner or alkaline based cleaner.
- Sukabumi Select mosaics are mounted with an alkali resistant mesh and non-water-soluble glue.
- Suitable for both interior and exterior applications in residential or commercial environments.
- Detailed installation instructions available at IslandStone.com

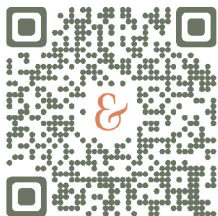

Sukabumi is a curated selection that blends the most sought-after hues to ensure a desired natural variation. Each precision-cut tile is finished with a honed surface for an ideal balance of soft texture that is easy to maintain. Available in traditionally used pool stone sizes, Sukabumi diverse selection of sizes, including mosaics, trims with bullnose edges and pool coping offers a complete design solution.

Thorough US-based testing confirms Sukabumi is approved for exterior and interior applications as both a flooring and wall tile including submerged applications in non-freezing environments.

ORDER SAMPLES
